## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reham et al in view of Short as discussed in paragraph 4 of the last office action.

Regarding the portable limitations as claimed, the examiner notes that it has been held it is not regarded as inventive to merely make a device portable or movable without producing any new and unexpected result. See in re Lindberg, 93 USPQ 23 (CCPA 1952). Regarding the intended use in the kitchen limitation, the examiner notes that this limitation does not further limit the claim as set forth in MPEP 2105, 2106. Furthermore, this limitation does not set forth any particular structural differences. MPEP 2111.02

2. Applicant's arguments filed 5/11/2005 have been fully considered but they are not persuasive. In response to applicant's argument that the references are not properly combined and that the primary reference, Reham et al, will not be operable with the combination of Short, the test for obviousness is not whether the features of a secondary reference may be bodily incorporated into the structure of the primary reference; nor is it that the claimed invention must be expressly suggested in any one or all of the references. Rather, the test is what the combined teachings of the references would have suggested to those of ordinary skill in the art. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981). In this case, both references have pressing functions and secondary reference Short teaches the basic concept of providing a biasing spring effect.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
